

had power over the Earth that caused many to mourn of hard times But as a change was determined in the latter times to be that the Earth from Opression would be set fre Also sin and bondage would be changed to Rigueousness

As time passes Much is to be don to establish the Order of God as God on Earth is a looking that all things may move in aray A kingdom must be established both spiritual and temporal As a temporal kingdom Is the theme an opening must needs be to the treasures hid a way As treasures is many which has been laid a way in the bowels of the Earth by the presant race of men As the Earth is the Lords and the fullness thereof the time has ariven for it to come forth to assist in establishing a kingdom that has long lain in the dark Money must be plenty amongst certin ones that is caled to establish Zion of the Chosen ones As the time has ariven for a change to be That Zion may arise in honour riches and buty and that without delay As Coin is a lying In all parts of the land hid a way by men That long since died that was don in the name of the Lord Also treasures By those on Earth that had an over pluss and conveyed it to the Earth that it changed owners when conveyed to the Earth that it is now at the Comand of the Antient of Days as they on Earth have a standing and have received their charge They this day have assembled and a desision is past To transact business that is now in voge It is to purchase lands of the world in the Neighborhood of Squaw Grove At the time of the sale At Chicaugo some few will be caled there to meet and secure land at the sale as directed by the Antient of days As they will meet with them and give directions how to procede such must be caled as will be named to attend to this business in the name of the Lord that a foundation may be laid that cannot be undermined As money is plenty of differant Coins yet it is to be used with prudence by those that of it have care As they will have power the cepter to sway Being agents to the Antient of days as they on Earth have assembled on this the fifteenth of the 11th month A decision is past To bring much about not only a temporal Kingdom is in aray but a brake up of the fallen one The time is desided for it to be don that obsticles may be removed that is much in the way The time fast ariveing for the word to go out To raise volenteers the Latter D- Saints to brake up But this power is held by the A- of Days that all things may move in order as Is by God decreed As he is the helmsman and director all moves as he says as he rules in power and wisdom on this Globe He has a standing that all to him is plain of the doings of man. He moves in order as is by his council decreed and recorded in Heaven And on Earth The time has ariven that much must be don to establish an order To assist the poor As the poor is many In all parts an eventful door must be opened that they

may have a sustenance A plan is determined By a council in Heaven that land shall be purchased and a field Established seven miles square in and about the above named Grove Also a Citty of High renown according to the pattern given and additions from time to time A senry of things now is in voge, condirected⁹ by the Antient of Days Its of the order of the Citty of Nauvoo as this place was established by Revelation Many together have meet and consecrated themselves and property to the Lord of Hosts God in wisdom on them has looked and given directions to his Council as he did in the days of Noah at the time of the flood. The council in Heaven then decreed that they would secure much fruit that a trouble arose Because of bad works that the wise and unwise was masacreed and taken from the Evil to come Some arose to honour others to dishonour but a few did stand testimony to bare and people a new Earth As much is adoining At this time amongst the Latter Day Saints much is said and a ben don by those that profess to be of God that their substance is much that is not their own that is secured in dark cells for a time to come But the time will arive that chosen ones will be caled to secure the goods and chattels of the Citty to establish Zion anew As a stake must be reard in honour of God By industry and economy as directed by the Antient of Days as they on Earth will travel and open the way for their agents that is by them Chosen As their Agents will be many abroad in the land They by Spirit will communicate to them in their daily moves Their minds They will direct that they in wisdom may move that all may be left without excscuse But as many is a saying in testimony I lack Provision for them is made in the scriptures of divine truth As the teachings reasonings of the Saviour is by many caled Correct let them follow his example and all with them will be well

[Folder number 10] Citty of Nauvoo Nov 15th 1842

I look at the doings of my fellow man and draw a contrast Between them and the doings of God And say I am supprised at the theme As many is a looking and adoining that say to have power with God I look at them in their moves and say whire has wisdom flead It is gone no more to return or is it with them as with water that by and by it may come round I look at the wisdom of the P. J. Smith and scan his doings as has ben I se him much degraded by his works that he is fallen fallen no more to arise Yes I se him with others no more to arise except by the privelege of being born again that them with others will have a chance that have made no pretentions to goodness But because of what they have don they will be sufferd to take another round that will wind up their doings worlds with out end To come

9. Olney likely meant "co-directed."
